

What We Value

When we talk about family values at Love's, it's more than the family name. We value our employees, customers and the communities where they live.

We value all-things local. Local stores across the country contribute to local nonprofits each year, and the Love's corporate office in Oklahoma City gives at least two percent of its net profits to local charities.

Each September, we raise money for Children's Miracle Network Hospitals. This campaign has raised more than \$15 million over 17 years, helping 94 member hospitals across the country.
